PEONIES

Bargain Offer

LAST fall we ran a special sale on Peonies offering a list of named varieties at 23c a plant. The sale pretty well cleaned out our stocks. After we had planted enough peonies to take care of our 1935 and 1936 business we had some odd plants left over and of these we made an unusually high grade mixture. There are about eighteen hundred plants altogether and as long as they last you may have them for 10c a plant. We guarantee that every plant has been grown by ourselves and that orders will be filled strictly in rotation as received. When the eighteen hundred plants are sold the offer is withdrawn.

Because of the relatively high cost of handling orders for one or two plants, we cannot afford to fill an order for less than six plants.

If wanted by parcel post add 21c for each six plants.

10c a Plant

DAPHNE ~ The Garland Flower

Throughout the late depression there was only one plant in the entire list the sales of which did not fall off. Every year, without exception, we have sold every first class Daphne we had. When one knows Daphne this is not to be wondered at since it is about the loveliest plant that grows out of the ground.

The Daphne is a dwarf, trailing evergreen shrub which never grows above a foot tall. It is absolutely the finest plant in existence for rock gardens. It is the loveliest thing imaginable for edging evergreen or other plantings.

In bloom it is covered with indescribably beautiful soft pink flowers and it usually blooms twice and sometimes in our garden three times a year.

These are properly grown balled and burlapped plants of the finest quality.

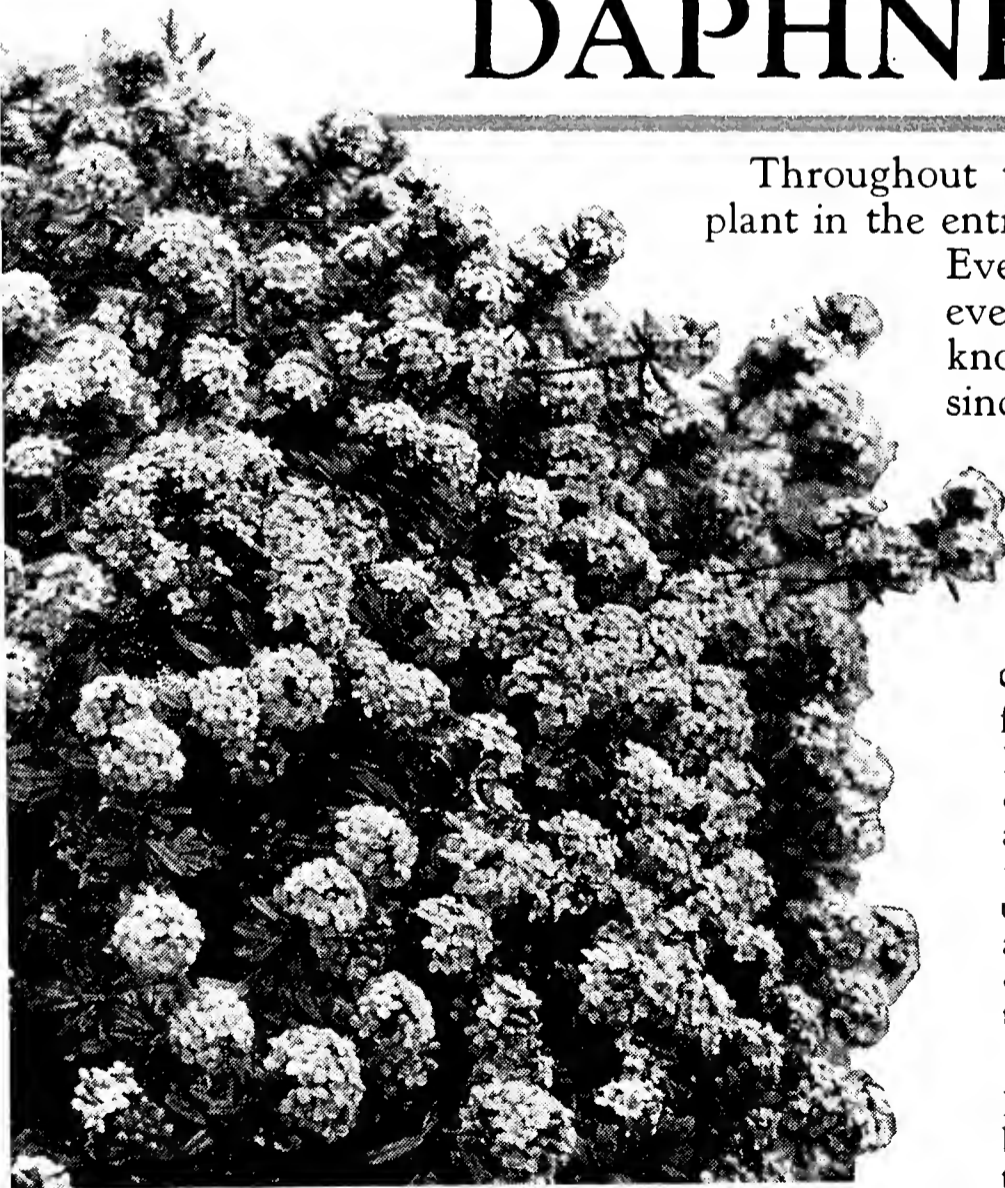

9-12 inch Plants

\$1.00 each

12-15 inch Plants

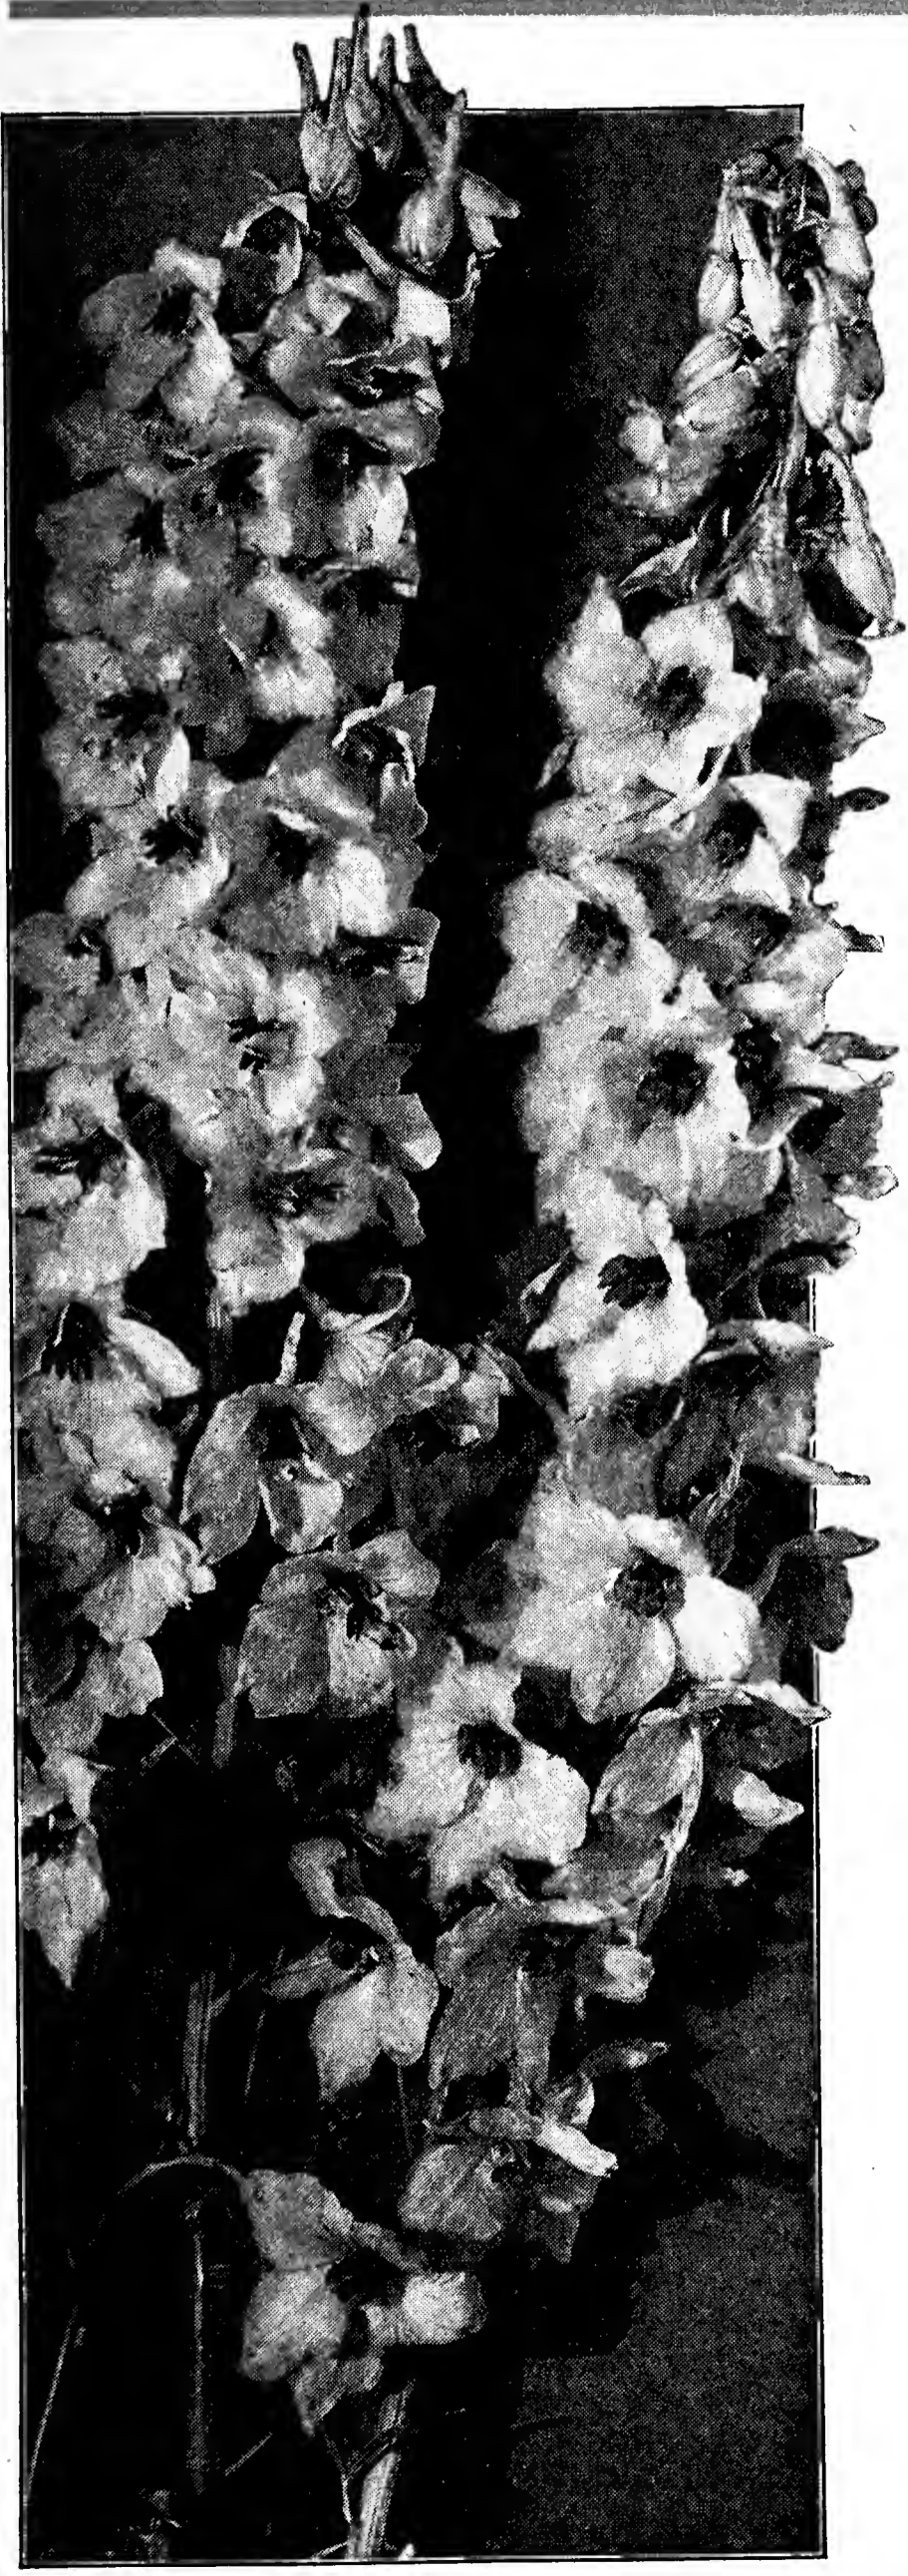

\$1.50 each

Tall English Delphiniums

BLOOMING all summer, coming up year after year, sending aloft successive shafts of incredible color to a height of five, six, eight feet. It is doubtful if any other plant so superb as Delphinium ever graced a garden.

Few people are aware of the perfection to which this ancient flower has been brought by modern culture, how easily it can be planted and grown, and how lasting a delight the gardener secures who plants Delphinium. If everyone knew, tall, hardy Delphiniums would be more in evidence everywhere.

We offer specially selected plants grown from seeds of famous named varieties. Will grow anywhere but do best in rich garden soil. Every imaginable tint and shade of blue, lavender, and purple. We promise you'll find positive joy in their extraordinary bloom.

Elliott's Magnificent Varieties

Improved English Hybrids. Range in color from very light blue to very dark blue, overlaid irregularly with tones of pink and lavender, rose, and lilac. Black spots on pistil and anthers at center of flower. Many blossoms show white secondary petals of white spots at base of major petals. A wonderful wealth of color variation in the English Hybrids.

Fine Mixed English Hybrids. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

English Hybrids, Extra Selected Varieties. 50c each; \$5.00 per doz.

Belladonna. Uniform light sky-blue. The most universally admired and desired of the solid color varieties. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

Bellamosa (The Imperial Formosum). For solid dark blue color, unequalled among Delphiniums—positively the best. \$2.50 per doz.; \$7.50 per 50; \$15.00 per 100.

Delphiniums may be ordered on open account.

If wanted by parcel post, add 15c for each six plants.

Hardy Perennial PHLOX

Beacon.

Africa. (New). A brilliant carmine-red with blood red eye. Well shaped flower heads composed of large florets. Good strong stem. One of the best new dark red varieties.

Baron Von Heeckeren. Very large trusses of fine salmon-pink flowers.

Beacon. Brilliant cherry-red. Grows 36 inches high. Flowers are carried on straight, strong stems. Excellent variety and one of the best of this color.

B. Comte. Splendid dark purple-red or amaranth.

Commander. Color is a brilliant deep crimson-red with slightly darker eye. Grows about 24 to 30 inches high and produces a great many spikes, creating a wonderful display of color.

Eclaireur. Purple-carmine blooms with white center.

Gen. Von der Heyden. Lovely salmon with a crimson eye.

Marechal French. (New). Erect, massive flower heads of deep scarlet with blood red eye.

Mrs. Jenkins. The earliest and best pure white variety.

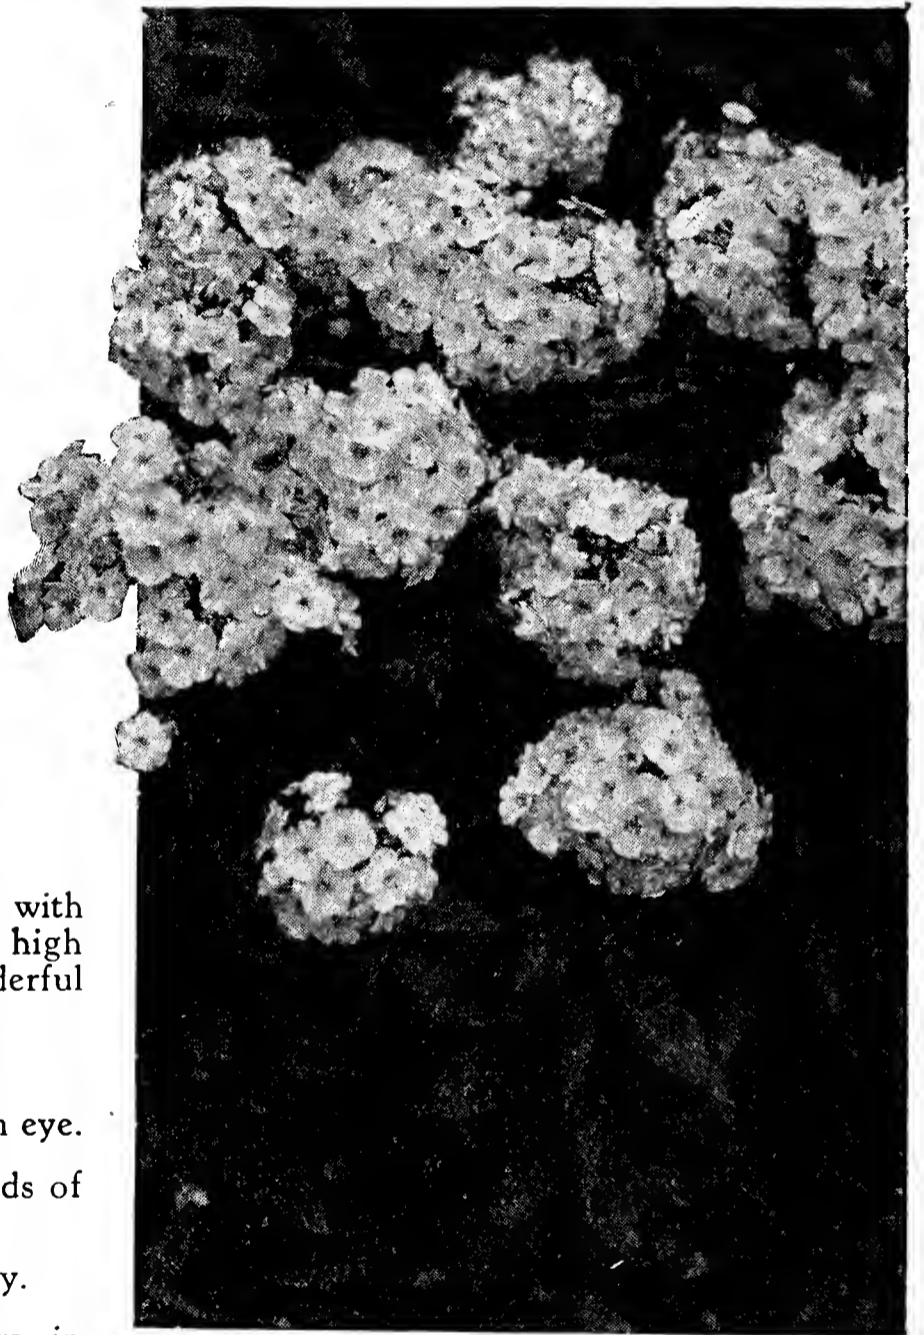

Mrs. Scholten. (New). Dark salmon-pink flowers in enormous pyramidal spikes. A splendid sort of great value. Mid-season flowering and of medium height.

Rheinlander. Salmon-pink; both flower and truss are immense in size, and the color is intensified by a brilliant carmine eye.

Richard Wallace. White with crimson eye. Splendid.

Rijnstroom. Rose-pink; both flowers and truss are immense in size, and the color is intensified by a brilliant carmine eye.

THE beauty and usefulness of these grand border plants give them deservedly first place among hardy plants. For cutting, their large trusses go a long way in floral decoration. In color they range from pure white to the richest crimson and purple, and from soft rose and salmon to bright coral-red, all having a delicate fragrance. Perennial Phlox succeed in almost any soil enriched with manure, but are much benefited by a mulching of decomposed manure in spring, and in hot weather an occasional soaking of water. If the first spikes of bloom are removed as soon as over, and the plants given a good soaking of water, they will produce a second supply of flowers, thus continuing the display until late in autumn. These later blooms are often finer than the first.

Price of All Varieties:
25c each; \$2.50 per dozen

If wanted by parcel post
add 10c for each six plants.

This sale is for cash only—No accounts opened at these prices

Three Outstanding Plants of Exquisite Beauty

Pink Flowering Dogwood

(Cornus florida rubra)

Though a single plant of the pink flowering Dogwood in full bloom is an unforgettable sight, to see a mass of these plants blooming, as the writer did one balmy spring day while driving in the outskirts of Erie, Pennsylvania, is something which makes one pause, gasping in astonishment and admiration. Nothing more lovely can be imagined. In general habit the pink flowering Dogwood resembles our native white form, which is universally acclaimed as one of the most beautiful plants in the world. It has the same fleecy cloudlike mass of flowers excepting only for the lovely pink color of the blooms. 3-4 ft., B&B plants, \$2.25 each.

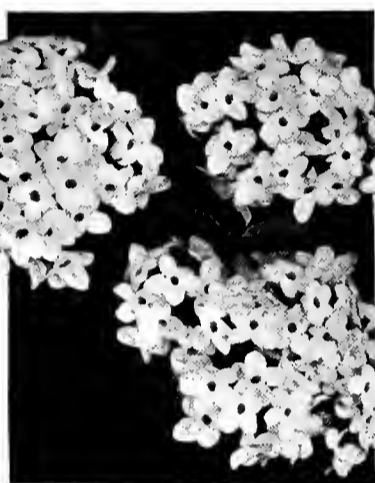

Pink Flowering Dogwood.

Pink Flowering Chinese Magnolia

(Magnolia Soulangeana)

Glorious cup-shaped flowers four to five inches across, of the loveliest pink imaginable, blooming before the foliage appears in the spring. The foliage itself is massive and glossy and the plant is handsome throughout the season. Though it grows slowly it finally develops into a small tree. 2-3 ft., B&B plants, \$4.00 each.

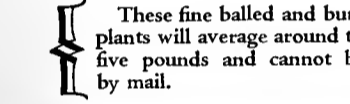

Magnolia Soulangeana.

Korean Snowball

(Viburnum Carles)

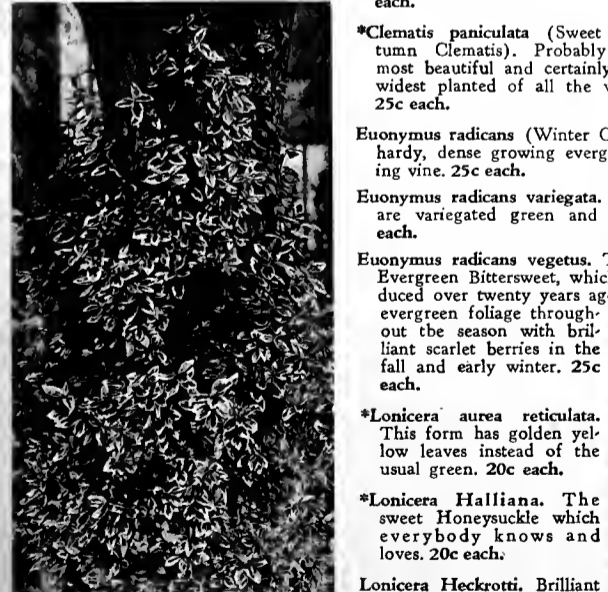

First there develops lovely pink buds which open into glorious clusters of pure white flowers, which remain fresh and clean for an unusually long time. While the plant is in bloom it gives off a delicate and delicious sweet scent. A medium sized shrub which seldom grows more than five feet, and blooms in May and June. 2-3 ft., B&B plants, \$1.50 each.

This sale is for cash only—No accounts opened at these prices

VINES

- *Akebia quinata. Clusters of purple-brown flowers followed by dark purple berries. 30c each.
- Ampelopsis Veitchi. The famous and ever-popular Boston Ivy which clings to masonry surfaces. 25c each.
- *Aristolochia sipho (Dutchman's Pipe). A vigorous, quick growing vine which will grow in dense shade. 40c each.
- *Celastrus paniculata. Vigorous growing Bittersweet which will succeed in the shade. The plant is mono-sexual and the male and female forms should be planted adjacent to each other in order to produce the heavy crop of red berries. 25c each.

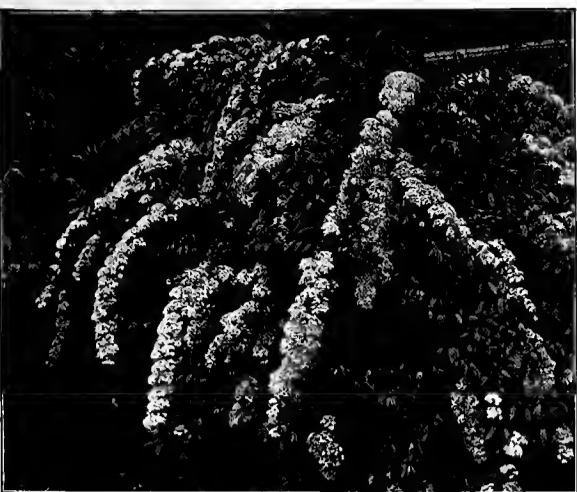

Clematis paniculata.

- *Lonicera aurea reticulata. This form has golden yellow leaves instead of the usual green. 20c each.
- *Lonicera Halliana. The sweet Honeysuckle which everybody knows and loves. 20c each.
- Lonicera Heckrotti. Brilliant scarlet flowers instead of the usual white and yellow. 35c each.
- *Lycium chinense (Matrimony Vine). The purple flowers in the summer are followed by scarlet berries which cling to the plant most of the winter. 25c each.
- *Wisteria sinensis. Purplish flowers a foot long in May. \$1.00 each.
- *Wisteria sinensis alba. Has white flowers instead of purple ones. 75c each.

Varieties marked with an asterisk(*) are twining vines requiring wires, trellises or similar supports. Those not marked are clinging vines.

If wanted by parcel post, add 16c each for three vines. Parcel post on a single vine is 12c.

This sale is for cash only—No accounts opened at these prices

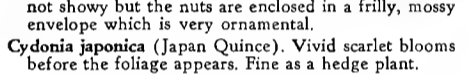

Spirea Trichocarpa.

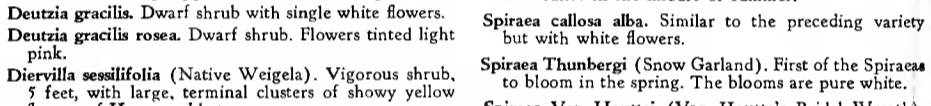

Your choice of any of the following Flowering Shrubs:

3 for 85c
6 for \$1.60
12 for \$2.85

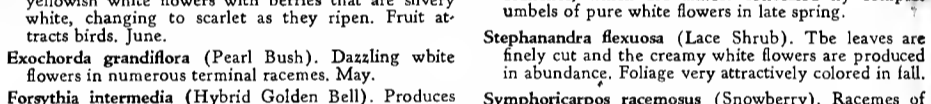

- Acanthopanax pentaphylla (Five-leaved Angelica). The effect of the luxuriant, bright glossy green foliage upon the arching branches is splendid.
- Aralia japonica. Bears showy spikes of white blooms in late autumn. Large pinnate leaves and prickly stems.
- Cephalanthus occidentalis (Button Bush). The creamy white, fragrant flowers are borne in dense, round heads. The foliage is large and glossy.
- Cercis canadensis (Judas Tree). Early in the spring beautiful rose-pink flowers are borne in clusters of four to eight, almost concealing the branches.
- Cornus alba sibirica (Red Twigged Dogwood). Creamy white flowers. The limbs are bright, blood-red and make a bright spot in the shrubbery planting even in the dead of winter.
- Cornus lutea (Golden Twig Dogwood). Erect bush 8 feet high with bright yellow branches, brilliant in the winter landscape.
- Cornus sanguinea. Black fruit; branches bright red and upright.
- Cornus stolonifera (Red Osier; Cornel). Creamy white flowers and white berries. Branches bright reddish purple.
- Corylus americana (Hazelnut). Vigorous shrub. Flowers not showy but the nuts are enclosed in a frilly, mossy envelope which is very ornamental.
- Cydonia japonica (Japan Quince). Vivid scarlet blooms before the foliage appears. Fine as a hedge plant.
- Deutzia gracilis. Dwarf shrub with single white flowers.
- Deutzia gracilis rosea. Dwarf shrub. Flowers tinted light pink.
- Diervilla sessilifolia (Native Weigela). Vigorous shrub, 5 feet, with large, terminal clusters of showy yellow flowers of Honeysuckle type.
- Elaeagnus umbellata (Japanese Oleaster). Fragrant, yellowish white flowers with berries that are alvery white, changing to scarlet as they ripen. Fruit attracts birds, June.
- Exochorda grandiflora (Pearl Bush). Dazzling white flowers in numerous terminal racemes. May.
- Forsythia intermedia (Hybrid Golden Bell). Produces great quantities of golden yellow flowers on its slender, arching branches before the foliage appears. April.
- Forsythia suspensa atrovirens. An upright, arching form. Similar to Forsythia Fortunei in habit and bearing similar lovely yellow flowers. The branches, however, are dark purple and the young growth is purplish.
- Hydrangea arborescens grandiflora (Hills of Snow). A fine shrub about 3 to 4 feet, with large clusters of white flowers somewhat like the snowball.
- Hydrangea arborescens grandiflora, Double. Similar to the above excepting that the flowers are double instead of single.
- Hydrangea paniculata grandiflora (Peegee Hydrangea). The very popular large-flowering type with enormous white blooms.
- Kerria japonica (Cochorus japonicus). (Globe-flower). Single yellow flowers in May.
- Kerria japonica variegata. A dwarf shrub with delicate green foliage edged with white. Bears a profusion of bright yellow flowers.
- Lonicera bella albidia (Bush Honeysuckle). In the spring it produces quantities of white flowers. In July the bush is covered with bright red fruits.
- Lonicera bella rosea. Exactly like L. bella albidia save that the flowers are pink.
- Lonicera fragrantissima (Fragrant Honeysuckle). Small, deliciously fragrant, white flowers tinged with yellow in the early spring before the leaves appear. April.
- Philadelphus, Avalanche. Slender, graceful arching branches. Snow-white flowers in profusion. Fragrant.
- Philadelphus coronarius (Common Mock Orange). An abundance of creamy white, deliciously fragrant flowers.
- Philadelphus Falconeri (Star Mock Orange). Dense, symmetrical shrub with white flowers shaped like stars.
- Rhodotypos kerrioides (White Kerria). Pure white flowers an inch or more across followed by a crop of black berries which cling to the branches throughout the winter.
- Robinia hispida (Rose-Flowered Acacia). Showy rose colored flowers which hang in pendulous racemes.
- Spirea Anthony Waterer. A dwarf shrub with dense heads of pinkish red flowers. These appear first about July, and if removed, the plant will continue to produce blooms until frost.

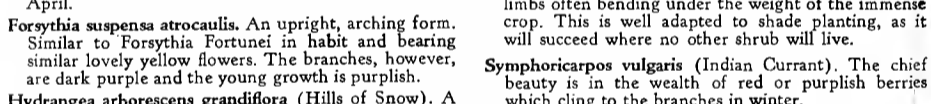

Spirea callosa Froebeli. Deep rosy blooms are borne in abundance in the middle of summer.

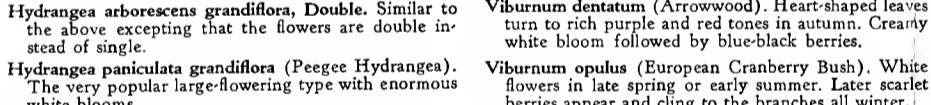

Spirea callosa alba. Similar to the preceding variety but with white flowers.

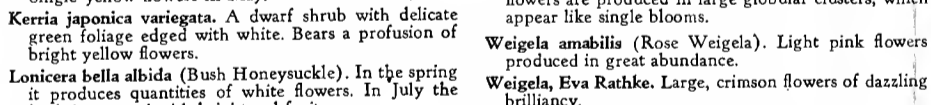

Spirea Van Houttei (Van Houtte's Bridal Wreath). A most graceful shrub with numerous arching branches, which are almost concealed by compact umbels of pure white flowers in late spring.

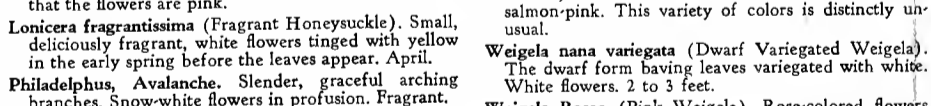

Stephanandra flexuosa (Lace Shrub). The leaves are finely cut and the creamy white flowers are produced in abundance. Foliage very attractively colored in fall.

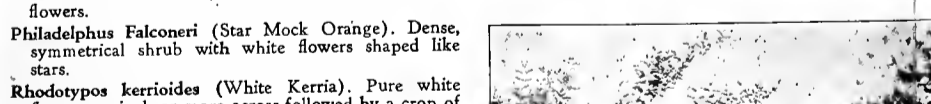

Symphoricarpos racemosus (Snowberry). Racemes of white or pinkish flowers are followed by white berries which are produced in great numbers, the limbs often bending under the weight of the immense crop. This is well adapted to shade planting, as it will succeed where no other shrub will live.

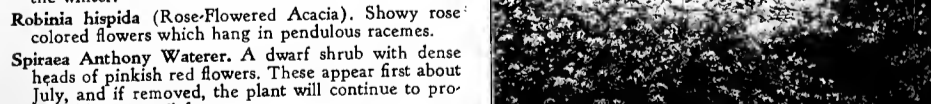

Symphoricarpos vulgaris (Indian Currant). The chief beauty is in the wealth of red or purplish berries which cling to the branches in winter.

Syringa vulgaris (Common Purple Lilac).

Viburnum dentatum (Arrowwood). Heart-shaped leaves turn to rich purple and red tones in autumn. Creamy white bloom followed by blue-black berries.

Viburnum opulus (European Cranberry Bush). White flowers in late spring or early summer. Later scarlet berries appear and cling to the branches all winter.

Viburnum opulus sterile (Snowball). Handsome, showy flowers are produced in large globular clusters, which appear like single blooms.

Weigela amabilis (Rose Weigela). Light pink flowers produced in great abundance.

Weigela Eva Rathke. Large, crimson flowers of dazzling brilliancy.

SHRUBS Bargain Offer

YOU remember that last fall we told you that the price of nursery stock must go up this spring. This didn't mean that it should go up like a sky rocket and so far as we are concerned, we don't intend that it shall. For the next few months a very moderate increase will be sufficient to pay for the increased labor costs and still enable us to handle our usual first class material. The "fly-by-nighter" who doesn't expect to be here tomorrow can profiteer by unreasonably boosting his prices or cutting his quality if he wishes. We, who have already been doing business for four generations, expect to be here for a long time to come, and we do not intend to risk our future for a mere temporary advantage.

We do promise you, however, that we expect to raise prices again next fall to meet the rapidly changing conditions for the better.

Bargain Prices on the Newer and Finer Shrubs

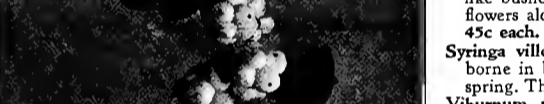

- Amygdalus chinensis rosea plena (Flowering Almond). The double pink flowers are borne in great profusion in early spring. 2-3 ft., \$1.00 each.
- Barberry, Red-Leaved. The new Barberry, the leaves of which are always bright red throughout the season. 18-24 in., 35c each.
- Calycanthus floridus (Sweet-Scented Shrub). Fragrant reddish brown flowers. Aromatic. 2-3 ft., 35c each.
- Chionanthus virginica (White Fringe). In June this small tree produces great numbers of showy racemes of white, feathery flowers. One of the loveliest flowering shrubs. 3-4 ft., 60c each.
- Clethra alnifolia (Sweet Pepper Bush). Fragrant, creamy white flowers are borne in erect racemes. July to September. 2-3 ft., 60c each.
- Euonymus alatus (Winged Burning Bush). In the fall the leaves turn to vivid tones of red and crimson, making the brightest spot in the landscape. 3-4 ft., 45c each.

Euonymus europaeus (European Burning Bush). Small tree; fruit red with orange seeds. May. 3-4 ft., 45c each.

Euonymus yedoensis (Yeddo Burning Bush). A large shrub with most attractive foliage and bright pink fruits with orange pods. 3-4 ft., 45c each.

Forsythia spectabilis (Showy Golden Bell). One of the new hybrid forms and easily the best of the family. 4-5 ft., 35c each.

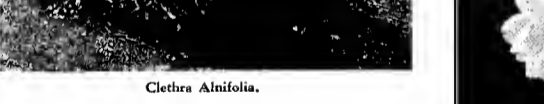

Kolkwitzia amabilis (Beauty Bush). Fine, large, graceful plant attractively leaved, attaining a height of about 6 feet. The beautiful trumpet-shaped flowers appear in great profusion during June, in pairs which cluster into cymes of about twenty-five. Flowers are bell-shaped and somewhat tipped, pale pink with orange veins in the throat, the buds being much darker. 2-3 ft., 60c each.

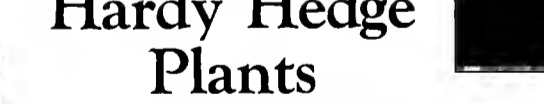

Philadelphus, Albatre. An extremely floriferous shrub with slender branches, middle sized serrated leaves. Full double flowers produced in dense panicles. Pure white. Very sweet. 3-4 ft., 40c each.

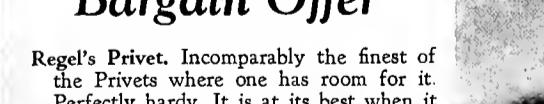

Philadelphus, Favorite. Large, single flowers 3 inches wide, pure white, yellow stamens. 3-4 ft., 40c each.

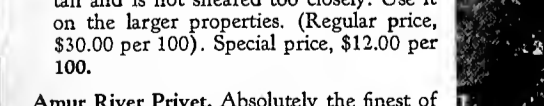

Philadelphus, Glacier. Double flowers, clustered by six or seven in thick panicles. Milk-white. 3-4 ft., 40c each.

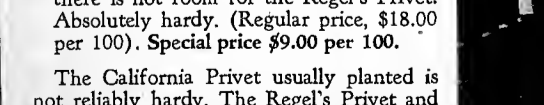

Philadelphus, Mer de Glace (Sea of Ice). The flowers are globular, semi-double, of a glistening pure white and deliciously sweet-scented. It would be impossible for a shrub to bear more flowers and the smallest plants are covered. 2-3 ft., 40c each.

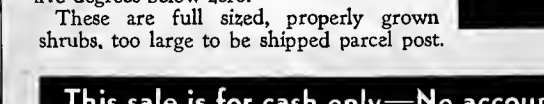

Philadelphus pyramidalis. Erect, rigid bushes with stiff spikes of pure white, double flowers. 3-4 ft., 40c each.

Philadelphus, Virginia. A tall shrub. Flowers in dense clusters; large and double, pure white. 2-3 ft., 40c each.

Rosa Hugonis (Golden Rose of China). Lovely single yellow, fragrant flowers. The first rose to bloom. 2-3 ft., \$1.00 each.

Spirea trichocarpa (Korean Spirea). Splendid dome-like bushes with innumerable clusters of pure white flowers along the branches. Latest to flower. 3-4 ft., 45c each.

Syringa villosa (Late Lilac). The pinkish flowers are borne in broad panicles, 3 to 6 inches long, in late spring. The best of the Lilac species. 3-4 ft., 40c each.

CLIMBING ROSES

BACK in 1930 when we propagated these Roses we guessed that we would need over ten thousand of them and that they would sell for 50c apiece or better. This miscalculation will cost us plenty. Obviously we cannot pay workers wages even with the highest quality of Roses so we will take our loss, give you the benefit of the best Rose bargain ever made and pay our men with cash.

Dorothy Perkins. Its beautiful shell-pink blooms literally cover the plant, being borne in huge clusters which frequently contain 30 to 40 individual flowers. Absolutely hardy.

Excelsa (Red Dorothy Perkins). The flowers are a clear, bright crimson color; the foliage is always green and grows with never a trace of mildew, which sometimes disfigures Crimson Rambler.

Hiawatha. Deep crimson single blooms, shading to snowy white at the base of the petals. The light, glossy green foliage forms a lovely background for the flowers.

Lady Gay. Grows very rapidly and produces great quantities of blooms. When first open, the flowers are cherry-pink, then they gradually tone to soft white. Extremely hardy.

Tausendschon. Beside being almost free from thorns, this variety is remarkable for the different colors which appear in the blooms. The opening flowers are pink but change to rosy carmine as they expand. Occasionally almost pure white flowers will be found upon the bush.

White Dorothy Perkins. Similar to well known Dorothy Perkins, except in color. Just as free-flowering and productive.

Wichuraiana (Memorial Rose). Lovely white single flowers followed by bright red berries.

Bargain Offer

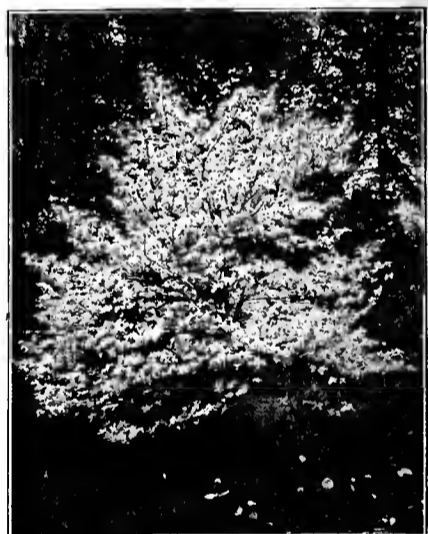

This sale is for cash only—No accounts opened at these prices

TREES

Cut-Leaf Weeping Birch (Betula alba laciniata). The branches arch over and hang to the ground. The lovely cut-leaf foliage is most effective against the white bark. 8-10 ft., \$2.00 each.

Dogwood (Cornus florida). If this lovely tree had nothing to offer for our enjoyment besides its great spread of glorious white flowers in the springtime, we still could not do without it. This, however, is not its only virtue. In the fall while its leaves turn flaming red, the Dogwood spreads for our pleasure its great crop of beautiful, scarlet berries. 5-6 ft., \$1.60 each; Balled and Burlapped trees \$1.90 each.

Dogwood—Cornus Florida.

Lombardy Poplar (Populus nigra italica). The ever-popular exclamation for accenting the landscape. 8-10 ft., 55c each.

Meyer's Poplar (Populus Meyer). Similar in appearance to the Lombardy but better in every respect, being free from insect attacks and plant diseases. 8-10 ft., \$1.00 each.

Norway Maple (Acer platanoides). The most popular and widely planted shade trees in America. 8-10 ft., \$1.75 each.

Oriental Plane (Platanus orientalis). The best city street tree in existence. Stands more abuse than any other tree. 8-10 ft., \$1.75 each.

Oxydendrum arbores. The panicles of pure white, slightly fragrant flowers resemble the blooms of Lily-of-the-Valley. The brilliant scarlet autumnal foliage is the brightest color in the fall landscape. 4-5 ft., \$1.00 each.

Pin Oak (Quercus palustris). The fastest growing of the ornamental Oaks and one of the loveliest trees in cultivation. 8-10 ft., \$2.25 each.

Salix Salamonii (Salamon's Weeping Willow). The fastest growing good tree hardy in northern latitudes and in our judgment the loveliest of the Willows. 6-8 ft., 75c each; 8-10 ft., \$1.25 each.

Schwedler's Maple (Acer Schwedleri). Similar to the Norway excepting that in the spring the leaves are bright purple and crimson and in the autumn tones of purple, red and brown. 8-10 ft., \$2.00 each.

White Birch (Betula alba). The graceful and airy tree with the beautiful white bark. 10-12 ft., \$1.50 each.

These are full sized trees and cannot be shipped by parcel post.

This sale is for cash only—No accounts opened at these prices

Alyssum saxatile compactum. Gray-green cushions covered with brilliant yellow blossoms.

Aster alpinus. A lovely blue Mountain Daisy with a large golden eye. 5 to 10 inches. May and June.

Aubrietia (Purple Lady). Mat-like plants covered with violet-purple flowers in April and May. 6 inches.

Bellis perennis. The lovely English Daisy is covered with beautiful double flowers about the size of a five-cent piece. The colors may be white, pink or assorted as you prefer.

Cerastium (Snow-in-Summer). The foliage of this dwarf plant is silvery white and is covered with small white flowers in May.

Cheiranthus Allioni. Dazzling, flaming orange flowers; the brightest color you can use.

Dicentra eximia. A dwarf Bleeding Heart with exquisite fern-like foliage and lovely pink blossoms.

Festuca glauca. A dwarf, grass-like plant with blue-gray foliage.

Gypsophila repens. A beautiful trailing plant with clouds of small white and pink flowers.

Helianthemum (Sunrose). White, yellow, orange, scarlet, pink and crimson. A constant succession of many colored flowers throughout the season.

Rock Plants

SPECIAL effects are desired on a rockery and these plants will produce these effects. Special soil conditions are also present and these plants will thrive under these conditions.

Strictly speaking, however, there is no such thing as a rock plant, a plant which must be planted in a rockery and in no other place. While these plants are specially desirable in a rock garden, they may also be used in the perennial borders or in the flower garden.

Any One Variety—

3 plants for \$0.50
6 plants for .95
12 plants for 1.75

If wanted by parcel post add
9c for each three plants.

Iberis (Candytuft). Lovely, dwarf perennial almost completely hidden beneath its numerous panicles of white flowers.

Nepeta Mussini. A dwarf, compact plant producing masses of lovely lavender flowers all spring and summer.

Phlox subulata. A dwarf, creeping Phlox, the flowers of which make a glowing carpet when in bloom. The colors may be white, pink or blue, as you prefer.

Plumbago larpentae. A lovely, dwarf, spreading plant, covered with deep blue flowers.

Polemonium reptans. A lovely, dwarf, bushy plant bearing showy blue flowers.

Primula polyanthus (Munstead Strain). The newest and loveliest of the Primroses. The colors may be white or yellow, as you prefer.

Primula polyanthus (Spechley Strain). A new development in Primroses. The flowers are shades of red, pink, white or yellow.

Saponaria ocymoides. Lovely, densely matted plants studded with rosy pink flowers. 8 to 12 inches. May and June.

Veronica rupestris. A beautiful prostrate matted trailer with a mass of little blue spires in June. 2 to 5 inches.

Three Outstanding Plants of Exquisite Beauty

Pink Flowering Dogwood

(*Cornus florida rubra*)

Though a single plant of the pink flowering Dogwood in full bloom is an unforgettable sight, to see a mass of these plants blooming, as the writer did one balmy spring day while driving in the outskirts of Erie, Pennsylvania, is something which makes one pause, gasping in astonishment and admiration. Nothing more lovely can be imagined. In general habit the pink flowering Dogwood resembles our native white form, which is universally acclaimed as one of the most beautiful plants in the world. It has the same fleecy cloudlike mass of flowers excepting only for the lovely pink color of the blooms. 3-4 ft., B&B plants, \$2.25 each.

Magnolia Soulangiana.

Pink Flowering Dogwood.

Pink Flowering Chinese Magnolia

(*Magnolia Soulangiana*)

Glorious cup-shaped flowers four to five inches across, of the loveliest pink imaginable, blooming before the foliage appears in the spring. The foliage itself is massive and glossy and the plant is handsome throughout the season. Though it grows slowly it finally develops into a small tree. 2-3 ft., B&B plants, \$4.00 each.

Korean Snowball

(*Viburnum Carlesi*)

First there develops lovely pink buds which open into glorious clusters of pure white flowers, which remain fresh and clean for an unusually long time. While the plant is in bloom it gives off a delicate and delicious sweet scent. A medium sized shrub which seldom grows more than five feet, and blooms in May and June. 2-3 ft., B&B plants, \$1.50 each.

Viburnum Carlesi.

These fine balled and burlapped plants will average around twenty-five pounds and cannot be sent by mail.

HERBACEOUS PERENNIALS

Bargain Offer

Stokesia laevis (Stokes' Aster).

Foxglove (*Digitalis*).

IT IS quite obvious now that the depression is over and if the majority of the business men will show a little restraint and a little common sense, in another year we will have forgotten all about it. It is true that prices must go up to meet increased labor and other costs. This, however, is no excuse for profiteering.

So far as we are concerned we are going to sit on the lid by keeping our prices just as low as possible. We never handled junk stock and don't intend to start now merely to give the illusion of fake bargains. At the same time we do not intend to raise our prices one cent more than is absolutely necessary to meet our increased labor charges and to maintain our quality. A few cents a plant will be enough at least until next fall.

Anemone japonica alba (Japanese Windflower). These are among the most beautiful hardy plants in the perennial garden. The foliage is always good but the crowning glory comes when from August till the snow flies they are a mass of white blooms. 2 feet.

Artemisia stelleriana (Dusty Miller). These are grown for their beautiful silvery foliage which is effective in the landscape. 2 to 2½ feet.

Astilbe Moerheimi. Lovely plants about 4 feet high with great plumes of white flowers. Plant these in a moist, shady place.

Boltonia latisquama. Lovely border plant. Flowers vary from pink to pinkish lavender and blue. 2 to 4 feet. September to November.

Canterbury Bells. The loveliest bell-shaped flowers in cultivation. The colors may be white, pink or blue as you prefer. 3 feet.

Coreopsis grandiflora. Gorgeous for massing and cut flowers because of the profuse rich golden yellow blooms. 2 feet. June and July.

Dianthus — The Grass Pinks. Lovely dwarf plants with fringed pink and white flowers blooming in May. For the border or Rock Garden.

Dictamnus fraxinella. Fine spikes of flowers during June and July. Plant where it may remain permanently since it improves with age. The color may be white or pink as you prefer.

Foxgloves (*Digitalis*). One can't imagine a garden without the dignified and lovely spikes of Foxglove in it.

Your
Choice of any of
these Named Perennials
3 for \$0.50
6 for .95
12 for 1.75
If wanted by parcel
post add 9c for
each three
plants

Dictamnus fraxinella.

Gaillardia. We consider the *Gaillardia* one of the most beautiful hardy plants in cultivation, and believe our strain to be the finest extant. The gay blossoms are obtainable in perpetual profusion from June to November.

Geum. Lovely border plants growing 15-18 in. high, blooming from May to July. *Lady Stratheden* is a rich golden yellow; *Mrs. Bradshaw* brilliant scarlet. The flowers of both are double.

Hemerocallis, Assorted (*Day Lily*). Your choice of three: *Dumortieri*, *Graminea* and *Queen of May*.

Hosta, Assorted (*Funkia Lilies*). Your choice of the three finest varieties: *Aoki*, *Coerulea*, *Major Pallida*.

Incarvillea Delavayi (*Trumpet Flower*). Large trusses of lovely rose-pink flowers. 18 inches.

Iris sibirica. The colors of these lovely *Iris* may be blue or white as you elect. 3 feet.

Liatris pycnostachya (*Cattail Gay Feather*). Very beautiful as well as odd. Blooms in midsummer and throws up long, narrow spikes of rich purple flowers which last a long time. A peculiarity of this plant is

its great attraction for butterflies; when in bloom it is always surrounded with them.

Linum perenne album (*Flax*). An erect growing perennial. Lovely white flowers.

Lychnis chalcedonica. Heads of vivid scarlet flowers, blooming practically all summer. 3 feet.

Lychnis viscaria splendens fl. pl. (*Ragged Robin*). Double red. Forms a dense tuft of evergreen foliage, and in June it sends up tall spikes of handsome, double, deep red flowers of exquisite fragrance, and remains in perfection six weeks.

Mertensia virginica (*Blue Bells*). Lovely blue flowers which fade to pink as they age. 18 inches.

Monarda, Cambridge Scarlet. Grows best in moist places. Most effective where it has a background of greenery. 3 feet. July and September.

Physostegia virginiana, Vivid. Lovely deep pink flowers blooming in July. 18 inches.

Platycodon grandiflorum, Assorted (*Balloon Flower*). Lovely white or pale blue bell-shaped flowers borne in June and July. 2 feet.

Primula veris (*English Primrose* or *Cowslip*). One of the loveliest plants in existence and probably the most popular and most widely used. White, yellow or shades of red.

Pyrethrum roseum (*Painted Lady*). The *Pyrethrums* are so simply and easily cultivated that they may be recommended to all who possess a garden. They are perfectly hardy and absolutely invaluable for cut flowers through the summer and autumn months. The flowers are bright and elegantly borne on long stems.

Ranunculus acris fl. pl. (*Bachelor Buttons*). The flowers are glossy golden yellow. 2 to 3 ft. May to September.

Salvia azurea (*Blue Sage*). Lovely spikes of sky blue flowers arise from russet bases in July and August. 3 ft.

Stokesia laevis (*Stoke's Aster*). Lovely blue-violet or pure white flowers. 4 to 5 inches across. From July until frost.

Sweet William, Assorted. Probably the most famous of the old-fashioned garden plants.

Veronica (*Speedwell*). *Ametystina* grows about 12 inches and *Spicata* 24 inches. Both produce blue flowers, among the loveliest in cultivation. Assorted or you may have your choice.

Canterbury Bells.

Liatris pycnostachya.

CLIMBING ROSES

BACK in 1930 when we propagated these Roses we guessed that we would need over ten thousand of them and that they would sell for 50c apiece or better. This miscalculation will cost us plenty. Obviously we cannot pay workers wages even with the highest quality of Roses so we will take our loss, give you the benefit of the best Rose bargain ever made and pay our men with cash.

Dorothy Perkins. Its beautiful shell-pink blooms literally cover the plant, being borne in huge clusters which frequently contain 30 to 40 individual flowers. Absolutely hardy.

Excelsa (Red Dorothy Perkins). The flowers are a clear, bright crimson color; the foliage is always green and grows with never a trace of mildew, which sometimes disfigures Crimson Rambler.

Hiawatha. Deep crimson single blooms, shading to snowy white at the base of the petals. The light, glossy green foliage forms a lovely background for the flowers.

Lady Gay. Grows very rapidly and produces great quantities of blooms. When first open, the flowers are cherry-pink, then they gradually tone to soft white. Extremely hardy.

Tausendschon. Beside being almost free from thorns, this variety is remarkable for the different colors which appear in the blooms. The opening flowers are pink but change to rosy carmine as they expand. Occasionally almost pure white flowers will be found upon the bush.

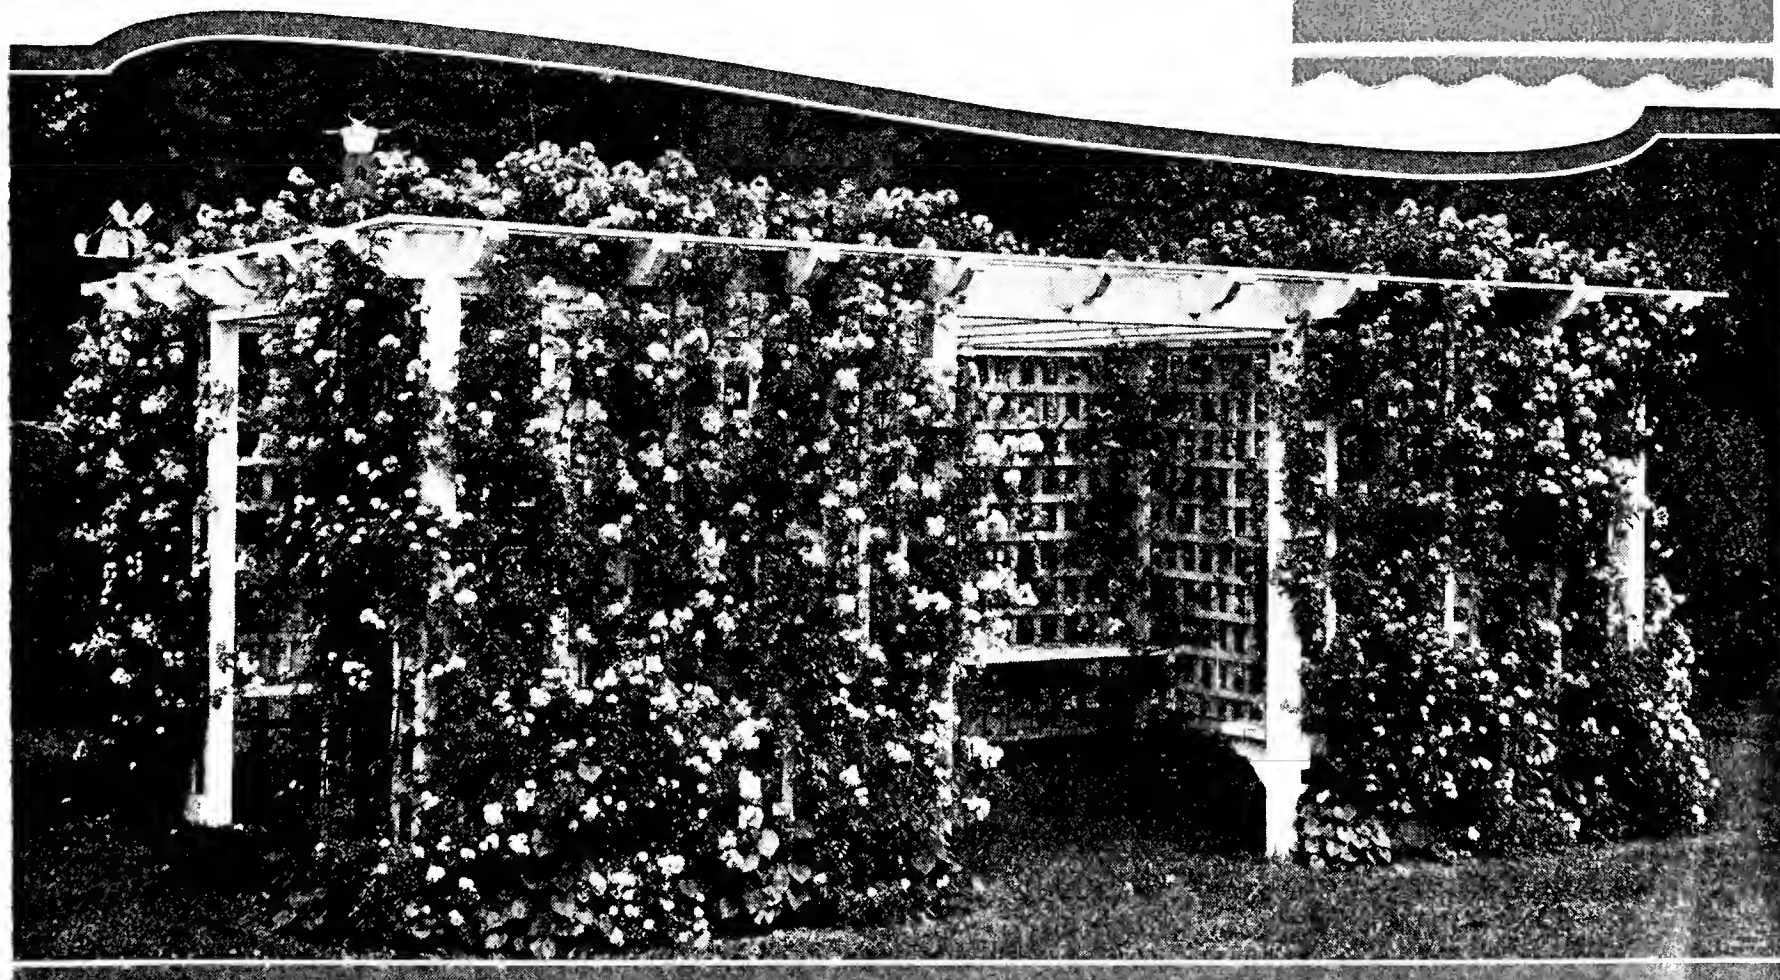

White Dorothy Perkins. Similar to well known Dorothy Perkins, except in color. Just as free-flowering and productive.

Wichuraiana (Memorial Rose). Lovely white single flowers followed by bright red berries.

VINES

***Akebia quinata**. Clusters of purple-brown flowers followed by dark purple berries. 30c each.

Ampelopsis Veitchi. The famous and ever-popular Boston Ivy which clings to masonry surfaces. 25c each.

***Aristolochia sipho** (Dutchman's Pipe). A vigorous, quick growing vine which will grow in dense shade. 40c each.

***Celastrus paniculata**. Vigorous growing Bittersweet which will succeed in the shade. The plant is mono-sexual and the male and female forms should be planted adjacent to each other in order to produce the heavy crop of red berries. 25c each.

Euonymus Radicans Variegata.

***Clematis paniculata** (Sweet Autumn Clematis). Probably the most beautiful and certainly the widest planted of all the vines. 25c each.

Euonymus radicans (Winter Creeper). A hardy, dense growing evergreen climbing vine. 25c each.

Euonymus radicans variegata. The leaves are variegated green and white. 25c each.

Euonymus radicans vegetus. The famous Evergreen Bittersweet, which we introduced over twenty years ago. Beautiful evergreen foliage throughout the season with brilliant scarlet berries in the fall and early winter. 25c each.

***Lonicera aurea reticulata**. This form has golden yellow leaves instead of the usual green. 20c each.

***Lonicera Halliana**. The sweet Honeysuckle which everybody knows and loves. 20c each.

Lonicera Heckrotti. Brilliant scarlet flowers instead of the usual white and yellow. 35c each.

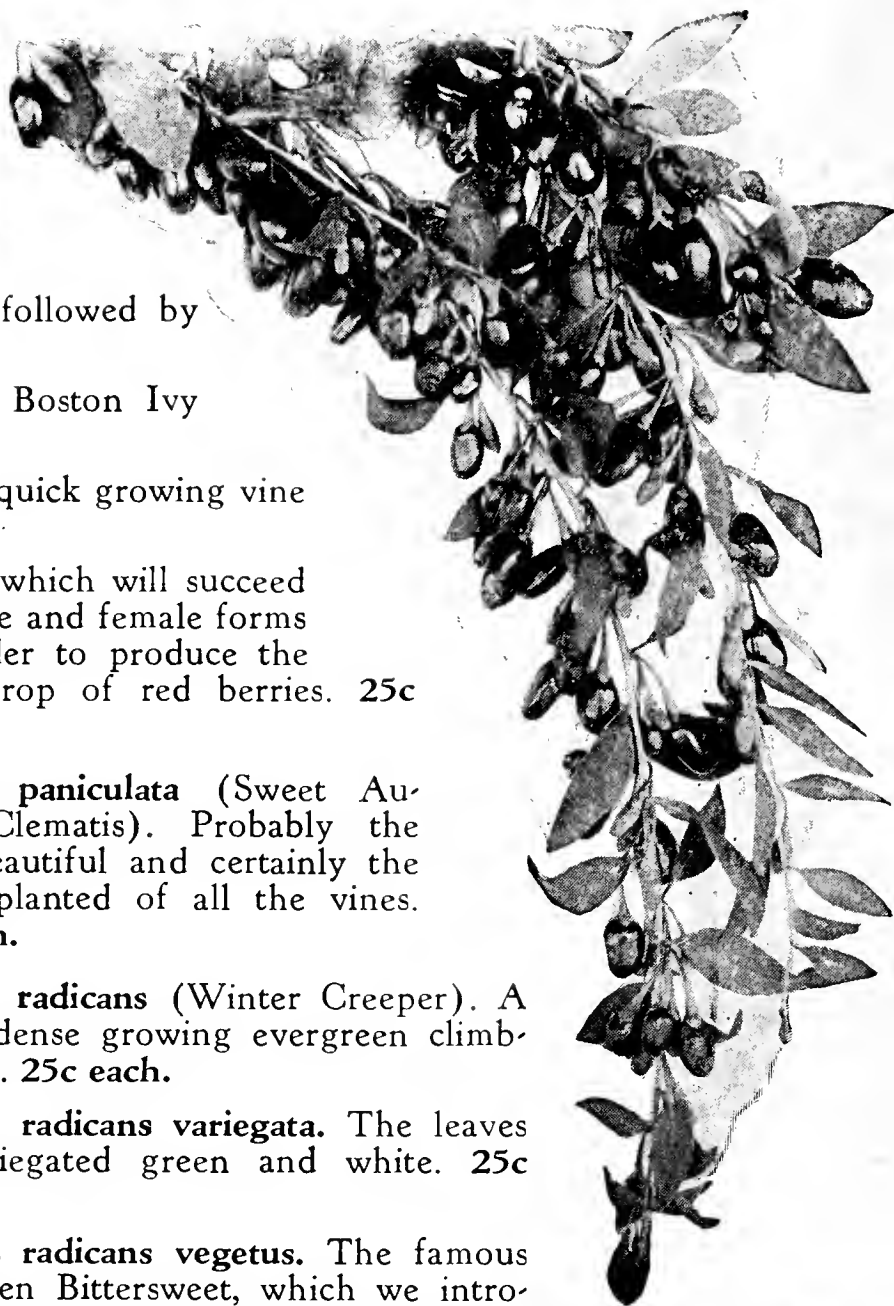

***Lycium chinense** (Matrimony Vine). The purple flowers in the summer are followed by scarlet berries which cling to the plant most of the winter. 25c each.

***Wisteria sinensis**. Purplish flowers a foot long in May. \$1.00 each.

***Wisteria sinensis alba**. Has white flowers instead of purple ones. 75c each.

Varieties marked with an asterisk(*) are twining vines requiring wires, trellises or similar supports. Those not marked are clinging vines.

If wanted by parcel post, add 16c each for three vines. Parcel post on a single vine is 12c.

Lycium Chinense.

Clematis Paniculata.

TREES

Cut-Leaf Weeping Birch (*Betula alba laciniata*). The branches arch over and hang to the ground. The lovely cut-leaf foliage is most effective against the white bark. 8-10 ft., \$2.00 each.

Dogwood (*Cornus florida*). If this lovely tree had nothing to offer for our enjoyment besides its great spread of glorious white flowers in the springtime, we still could not do without it. This, however, is not its only virtue. In the fall while its leaves turn flaming red, the Dogwood spreads for our pleasure its great crop of beautiful, scarlet berries. 5-6 ft., \$1.60 each; Balled and Burlapped trees \$1.90 each.

Lombardy Poplar (*Populus nigra italica*). The ever-popular exclamation for accenting the landscape. 8-10 ft., 55c each.

Meyer's Poplar (*Populus Meyeri*). Similar in appearance to the Lombardy but better in every respect, being free from insect attacks and plant diseases. 8-10 ft., \$1.00 each.

Norway Maple (*Acer platanoides*). The most popular and widely planted shade trees in America. 8-10 ft., \$1.75 each.

Oriental Plane (*Platanus orientalis*). The best city street tree in existence. Stands more abuse than any other tree. 8-10 ft., \$1.75 each.

Oxydendrum arborea. The panicles of pure white, slightly fragrant flowers resemble the blooms of Lily-of-the-Valley. The brilliant scarlet autumnal foliage is the brightest color in the fall landscape. 4-5 ft., \$1.00 each.

Pin Oak (*Quercus palustris*). The fastest growing of the ornamental Oaks and one of the loveliest trees in cultivation. 8-10 ft., \$2.25 each.

Salix Salamoni (Salamon's Weeping Willow). The fastest growing good tree hardy in northern latitudes and in our judgment the loveliest of the Willows. 6-8 ft., 75c each; 8-10 ft., \$1.25 each.

Schwedler's Maple (*Acer Schwedleri*). Similar to the Norway excepting that in the spring the leaves are bright purple and crimson and in the autumn tones of purple, red and brown. 8-10 ft., \$2.00 each.

White Birch (*Betula alba*). The graceful and airy tree with the beautiful white bark. 10-12 ft., \$1.50 each.

Dogwood—*Cornus Florida*.

Lombardy Poplar.

Hardy CHRYSANTHEMUMS

THINK for a moment what our gardens would be like in the fall if we did not have hardy Chrysanthemums to plant! They would be as bare and empty as they are in December. The Chrysanthemums are the last plants to bloom in the fall and make the garden glow with white, yellow, bronze, scarlet and crimson when there is nothing else in bloom. Chrysanthemums in your garden mean flowers a month after your neighbor has none.

Aladdin.

POMPON CHRYSANTHEMUMS

Aladdin. This is the newest of the Chrysanthemums and so much finer than anything which has preceded it that the introducer protected it with a patent. It blooms from five to six weeks ahead of any other hardy Chrysanthemum and blooms continuously until frost. Beginning in July the flowers appear in an endless procession. Its lovely color resembles that of the famous Talisman Rose, being a lovely golden-bronze stained apricot, light red and damask pink. Incomparably the finest of the Chrysanthemums. 30c each; \$3.00 per doz.

Autumn Glory. Rich golden yellow with brownish tinted centers.

Doris. Lovely bronzy variety with very short petals.

Indian. Pleasing coppery red. Late.

Klondike. Small blooms of brilliant yellow.

Marie Antoinette. Dark pink flower of fine substance and high quality.

Mrs. Nellie Kleris. A darker pink than Lillian Doty with a white undertone instead of cream.

Mitzi. Yellow flowers of small or medium size with red centers before fully open.

Red Doty. Rosy gray on outside and dark crimson within.

Red Button. Dwarf, button type. Dark bronzy red.

Skibo. A bright yellow variety of medium size, occasionally tinted rust red in center.

Prices of all varieties except Aladdin 20c each, \$2.00 per doz.

If wanted by parcel post, add 15c for each 6 plants.
